THINKING OUT LOUD

By H. M. L.

One of the inevitable aftermaths of war in all countries is the depreciation of human values. Human life in criminal minds becomes cheaper, often negligible. Veterans especially trained to fight and kill the enemy, sometimes turn on their fellows. We sometimes wonder if, for no other reason than just as a means of saving taxes, it would not be worth while for the government, state or federal, to give veterans who manifest signs of moral deterioration a re-orientation course.

Sometime ago we read of a horrible instance of the breakdown of post war social order in Austria. A famous actor and his fiance were riding a motorcycle on a road leading to Vienna. The couple collided with the car of an "important" person. They were thrown into the ditch, writhing and moaning. The "important" person's chauffeur stopped the car, the personage got out, walked back to the scene, gestured to the horrified spectators to draw away from the two, drew his revolver and with two well directed shots ended their suffering. He then entered his car and drove on.

No arrests, no damages, and no apologies. Just a pair of funerals for relatives to bear, already overburdened with taxes and grief. In this country we kill maimed or injured dogs and horses when we know they there is no hope of saving them. Long after war ends' it strides on, inflicting its cruelties upon those who survive it.

According to J. Edgar Hoover, of the Federal Bureau of Investigation, crime during and since the war has multiplied. To cope with it federal investigators have been greatly increased in number. An instance of the expansion of the FBI, indicating its greater activity, is the fact that five investigators swarmed into Nevada County to join the hunt a few weeks ago for the three Wheatland bank robbers.

Two lovers hitch-hiking their way across the continent, arrested in Las Vegas, Nevada, confess to murdering four drivers who gave them a lift. Persons of such brutish mentality cannot often be believed. They confess to four murders as many states. Only one has thus far been proved, but others may in time prove true. The body of one of their benefactors was found in this county east of Truckee. The confession of the woman blackens his character, to be sure, but he is not here to defend himself.

Nevada County is now faced with a trial which may cost the tax payers $10,000 or more, because two moronic lovers wished to come to California, hitch-hiking and murdering as they came. In their various confessions it is hard to detect the faintest trace of remorse though the woman has had momentary spasms of a guilty conscience.

We hope that even though this is the month of vacation for the two confessed killers in the county jail, they may have a speedy trial and, if proved guilty, a speedy end. The sooner the lives of proved murderers are ended the greater the general respect for law.

Native Daughters Initiate 4 New Members

GRASS VALLEY: Manzanita Parlor, Native Daughters of the Golden West, on Tuesday evening initiated four new members following the regular meeting.

Rita Berryman, president, presided over the ceremony. The appointment of Elsie Peard of the parlor to be supervising grand deputy president for the district, and Betty Hanson as deputy grand president, was made. Refreshments were served at the close of the program.

GRASS VALLEY: Mr. and Mrs. T. M. Harris left this week for San Francisco for a few days visit.

Tom Wells a member of the Fort Sutter Lions Club, was a business visitor Wednesday.

LOCAL MEN ON STATE CHAMBER COMMITTEES

NEVADA CITY: Thirteen Nevada county leaders have been reappointed to important committees of the California State Chamber of Commerce's Sacramento Valley Council, which is planning statewide and regional programs of benefit to this area.

William Durbrow, Grass Valley, was again named chairman of the tax committee by George G. Pollock, Sacramento, chairman of the Sacramento Valley Council. Other reappointments were:

Highway Committee—H. F. Sofge, Nevada City Chamber of Commerce.

Industrial Committee—Wesley B. Donnenwirth, Grass Valley; George W. Hallock, Grass Valley.

Natural Resources Committee — Walter M. Barrett, Truckee; Guerdon Ellis, Supervisor, Tahoe National Forest.

Taxation Committee — William Durbrow, chairman and Hugh D. Brown, both of Grass Valley.

Travel and Recreation Committee —Ralph D. Benham, Gordon Hooley, Elmo B. Moriano, Max D. Williamson, Soda Srings; R. J. Kronemeyer, Grass Valley Chamber of Commerce. Loyle Freeman, Grass Valley; H. F. Sofge, Nevada City.

BABY SHOW WINNERS TO BE ANNOUNCED SAT.

NEVADA CITY: Mrs. Carl J. Tobiassen, chairman in charge of the baby show in which there are 300 entrants, states that winners will be posted at the show headquarters in Nevada City and Grass Valley Saturday.

Monday evening the awards will be made and winning babies presented in a pageant at Nevada City high school. The six judges for the Wednesday show were: Mrs. George Thompson of Fair Oaks; Mrs. F. J. Violet of Fair Oaks, Mrs. C. E. Pascoe of Coalinga; Mrs. Celine Portier Pew, of Downieville, Mrs. F. Polkinghorn of San Francisco; Mrs. B. Moore of Camptonville.

Mrs. Tobiassen, president of Banner Mt. Auxiliary No. 2655, Veterans of Foreign Wars, sponsoring organization, presided at the show.

Special awards will be made for red heads and three sets of twins. The show was divided into two sections, the first being infants and the second, young children.

CHANGE OF OWNERSHIP AT ALLEGHANY STORE

NEVADA CITY: Joseph and Mae Sbaffi have purchased the business of the general store in Alleghany in respect to certain lines of merchandise. Alpha Hardware Co. retains other lines of supplies at the same store.

The business was formerly owned by R. P. Hawkins. After the death of Hawkins a few years ago the business was taken over by the Alpha Sierra Co., a corporation.

When Alpha Hdw. Co. bought the business of Alpha Stores Ltd., the new company also acquired the Alpha Sierra Co. Mr. and Mrs. Sbaffi have designated their business as the Alleghany Supply Co.

Driver Crashes Into Jerry Brust's Property

GRASS VALLEY: J. D. Tellam of this city was cited yesterday for driving without a license, when his car crashed a fence after breaking off a fire hydrant at the city limits on West Main Street.

Tellam asserted the left front brake locked as he was coming down hill on a curve, throwing his car out of control. It went through the fence into the property of Jerry Brust.

Mr. Milton Harris of the Loyalton Branch, Bank of America, and Mrs. Harris, are visiting relatives here.

Mr. and Mrs. E. J. Bennetts of Alameda are guests of Mr. and Mrs. Clyde Rosewall and son of Wilson Avenue.

Confessed Murderers Arrive At Nevada County Jail

OLD TIME BANDIT ON WHITE HORSE MAY HAVE DROPPED GOLD COINS PECK SNYDER FOUND

GRASS VALLEY: Peck Snyder, employed by Paul Jenks, contractor in charge of improvements in the Veterans Memorial Building, and his fellow workers, digging a basement, were talking about buried treasure yesterday morning when, strange coincidence, he dug up a $20 gold piece, minted in 1883.

He not only dug up one, presently he found another, same minting, and then three others minted in 1895, 1894 and 1890. Much speculation ensued regarding the original owner of the gold pieces, once so plentiful in this gold mining town, and now relegated to museums and Fort Knox.

It is believed the money may have been that flowing from the pockets of a robber on a white horse who sped out South Auburn Street years ago after robbing a local bank. The children of the James S. Hennessy School on that day picked up many coins over the route of the fugitive, it is reported. The bulk of the robbery is believed to be buried somewhere on Osborne Hill, adjacent to the Empire Mine. It was never recovered.

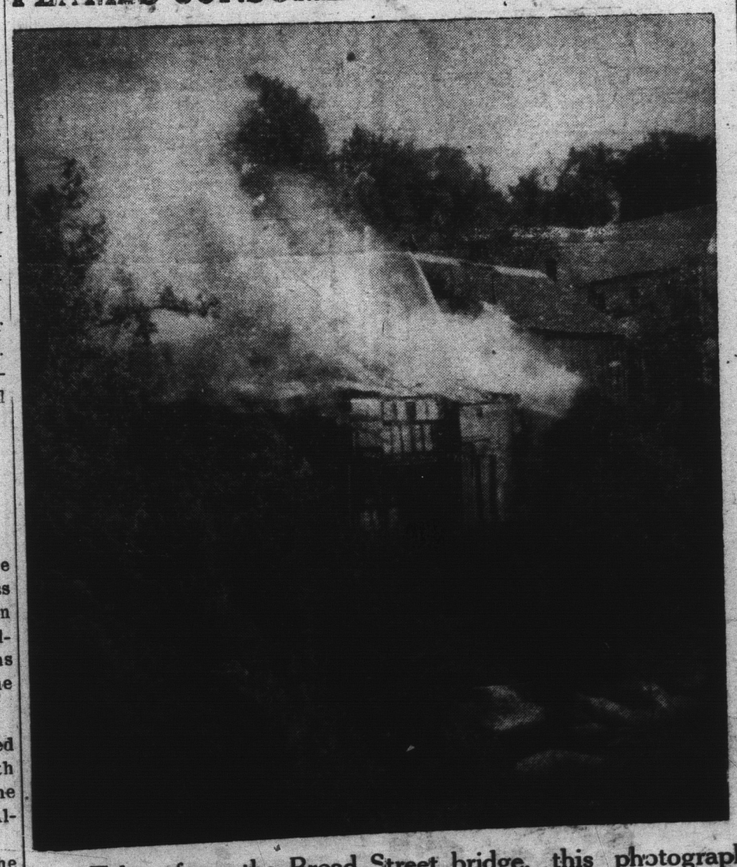
SOFGE AND SPORTSMEN PROTEST NEVADA DEER HUNTING LAWS

NEVADA CITY: Protesting Nevada's new law regarding hunting fees, the Nevada County Sportsmen's Club has asked the California Fish and Game Commission to enact similar rules in California for out-of-state hunters. The letter sent to the commission by Secretary H. F. Sofge follows:

At the meeting of the Nevada County Sportsmen's Club, July 28th, the recent action of the State of Nevada in enacting a law regarding fees to be charged, and restrictions placed on out-of-state deer hunters, was discussed and its effect on California sportsmen deeply resented.

"We can see no reason why your honorable body should not enact a samilar law for California, thus placing Nevada hunters under the same law they have placed out of state hunters. A motion to that effect was unanimously passed by our members, and I was instructed to notify your honorable body of our action and urge you to pass a similar law. Our action has been endorsed by the Nevada City Sportsmen's Club through their president, Mr. George Halstead."

FLAMES CONSUME MINER'S HOME



Taken from the Broad Street bridge, this photograph shows the blazing rear of the Miner's Home, ancient Sacramento Street structure. The building was a complete loss. Firemen, battling for over two hours, preserved the adjacent buildings.

FESTIVAL AT LAKE TAHOE SATURDAY

BIJOU: An action packed program starting at 9:30 a. m. and ending in the wee hours will feature the first South Lake Tahoe Festival at Bijou next Saturday, August 9.

Barney Goodwin, general chairman for the event, announced today that guests would be entertained all day with boat racing, aquatic demonstrations, a bathing beauty contest, dancing and entertainment—all free to visitors.

The program starts with a parade of boats as twenty four of the fastest speedboats on the lake file past the Bijou beach. On board will be lovely lasses who will later compete for top honors in the beauty contest.

Seven races ranging from thrilling relays to an all-out championship competition will follow at ten. Trophies will be presented to winners after the races.

An aquatic exhibition featuring the finest waterskiers in the region is set at 1 p. m. Team and individual acts will show breath taking skill on the flying boards.

Little 12 year old Larry Gallagher of Stockton will give a special exhibition.

Mrs. Rose Jones of this city yesterday received a visit from her nephew, Leslie L. Caffiere of Seattle, and Mrs. Caffiere, and her niece, Mrs. Harry B. Hill of Azalea, Ore., and Mr. Hill. The party are spending their vacation touring California.

END OF HONEYMOON FOR PAIR WHO MURDERED JAMES McLAIN

NEVADA CITY: Two tired and depressed prisoners, Mr. and Mrs. Joseph L. Hardy, Jr., confessed murderers, ended their honeymoon Wednesday evening, when Sheriff Richard W. Hoskins and Coroner Alvah Hooper drove up to York Street entrance of the courthouse and turned them over to deputies. There were no flashing bulbs of press cameras, that marked their progress from Las Vegas to Truckee. Aside from three or four curious spectators there were none present but the sheriff's staff.

Hardy, 24, was placed in a solitar cell. His bride of week, Lois Hunt Hardy, was placed in the women's quarters on top floor, Mrs. Effie Goering, prison matron was summoned to attend her.

District Attorney Ward Sheldon, who conducted the preliminary hearing yesterday in the township court of Justice of the Peace R. N. Little in Truckee yestrday stated he did not know whether, as reported in Truckee, the pair were ready to plead guilty on arrignment in the superior court. But in any event, he said he did not believe any judge in California would be willing to accept such a plea unless the defendants were represented by counsel.

"Most states require that the defendant be represented by attorney in capital cases," said Sreldon, "California does not. But in any event I would think it highly improbable that any judge would pronounce sentence on a plea of guilty, unless the defendants were represented in court by an attorney."

The Hardys confessed to the murder of James McLain, a bay area elevator operator, in a sordid version of the "badger game". McLain was lured to his death and shot in the head by Hardy while Mrs. Hardy held McLain in her arms.

PLANS FOR FINANCING NEW HOSPITAL HEARD

GRASS VALLEY: Three plans for financing a community hospital were discussed yesterday at a general meeting of the Chamber of Commerce at noon at the Holbrooke Hotel Dr. Daniel L. Hirsch, president of the chamber led off the discussion, with a resume of the possibilities. He emphasized the acute and increasing need for more hospital facilities for this area.

He said that the doctor's committee investigating the situation had met with the board of directors of the group which owns the uncompleted hospital on Shaw's Hill between Grass Valley and Nevada City. It was estimated at this meeting, he said, that $600,000 would be required to put the structure in usable condition.

Dr. Hirsch discussed various procedures for raising funds for a community hospital under the following headings: (1) subscription of donated funds by a local organigation; (2) raising funds locally by using a professional fund—raising firm; (3) establishing a "hospital" district, where in funds would be furnished in a proportion of one-third each, by county, state and federal government.

Mrs. Marie Williford, of the Business and Professional Women's Club, said that she thought her group could sparkplug the fund-raising campaign. She remarked that if the chamber would decide which method of financing a community hospital it preferred, her organization would get to work to support the program.

The qualifications of various profersional fund-raising firms were discussed Wesley Donnenwirth expressed himself as being in favor of using government funds if available. O. P. Steele spoke in favor of keeping financing purely local. Ray J. Kronemeyer read statistics pertinent to community hospital financing.

At the conclusion of the meeting, Dr. Hirsch showed colored movies and still transparencies of the 4th of July celebration.

DUTCH FLAT HEARS OUTDOOR COMIC OPERA

DUTCH FLAT: This mountain hamlet laid claim Sunday to becoming a small but active cultural center when The Maid as Mistress, a comic opera, was given in the gardens of the Guy Gilchrist home. The opera was sung by Bart Arotca, Alberta Cieri, and Louis Piccirillo.

The musical entertainment was a benefit for the Dutch Flat Fire Department. Saturday a barbecue was put o nto procure money for additions and improvements to the local swimming pool.

Hydraulic Miners Meet

AUBURN: The California Hydraulic Mining Association will meet at the Freeman Hotel, Auburn, Sunday August 10, beginning at 2 p. m. There will be the usual round-table pre-meeting luncheon at 1 p. m.

COUNCIL WILL AID RECREATION COMMISSION

NEVADA CITY: At its regular session last night, the City Council began the meeting with the focus of attention on youth recreation.

City Clerk George Calanan swore in as members of the Recreation Commission Frank Stewart, Harold Berliner, "Slim" Thompson, Thomas H. Taylor and William C. Briggs.

Calanan informed the recreation commission that there was in existence a state recreation organization designed to aid local groups. Ed Hewston reported that the recreational rooms at the National Hotel, due to the efforts of Mrs. Charles Veale, Harold Berliner and others, were in some degree ready for use. They have been equipped with two ping pong tables, and with a piano.

The recreation group next plans to install a pool table, when sufficient funds can be raised.

The matter of city support for the Recreation Commission was discussed and a figure of $30 per month was tentatively agreed upon by the council.

The council was still in session as the Nugget went to press. It was reported that two ordinances would be presented to the council with a request for action. One of these was said to be an ordinance making legal "free play" slot machines. The other was a duplicate of the county anti-slot machine ordinance.

LAKE TROUT TAKEN

Anglers took many large cutthroat trout last week from Topaz Lake in Mono County. Running from 2 to 7 pounds, most of the fish were caught with spinners and flat fish trolling.

While commanding the 4th Fleet, Admiral Ingram also developed a model farm which supplied his naval forces in the South Atlantic with fresh vegetables and meats. Brazilian students of agriculture visited the farm to study the latest methods used there.

THE COLLIER-BURNS HIGHWAY ACT OF 1947

(By HARRY F. (SI) SOFGE)

Thinking the readers of your valuable paper might be interested in some of the major features of the Highway Act, I will endeavor to outline a few of them.

The act is an exceedingly comprehensive measure and incorporates many progressive provisions which will tend to bring about maximum efficiency in the expenditures of a state-collected revenues.

It provides for improved county, city and state highway administration. Each county is required to establish a system of primary roads; to consolidate its county road administration; and to report detailed road revenue and expenditure data to the state controller. Each city must also classify its streets and furnish detailed expenditure reports to the state controller.

Major changes affecting the state include the addition of 67.4 miles of state highways in the San Francisco-Los Angeles metropolitan areas; that the state maintain state highways in cities; that the Department of Public Works submit an annual budget which will be "functioned" by the Director of Finance; and that the department is required to pay, under certain conditions, for the relocation of public utilities where freeways are constructed.

The first appropriation of increased gas tax monies will not be made to the State Division of Highways until January, 1948. Increased motor registration fees will be first collected in 1948 and will not be appropriated until January, 1949. Hence some time will elapse before the accelerated state highway improvement program will be fully underway.

The first apportionment of funds to counties under the new act will be made on the old basis of 58,000 miles of maintained county roads, instead of on the basis of 63,000 miles, as submitted to the Collier committee. Many counties will receive more funds under the 58,000 miles basis than under the 63,000 mile formula. Counties should enter into a cooperative project with the State Division of Highways and the Public Roads Administration to definitely analyze and establish the mileage of county maintained roads.

It was also stated that while the new legislation should provide highway development funds at a faster rate than heretofore, the public are inclined to expect more rapid construction than will be possible. According to Mr. Grum, assistant state highway engineer, everything the public should like to see done in highway development cannot be done at once.

WANT TO BUY A GHOST TOWN?

LAS VEGAS (Nev.): A Nevada town complete with railroad station, bar, casino and bottle house is for sale.

A Las Vegas realtor said the highest bidder would get the famous ghost town of Rhyolite, located near Beatty, 150 miles north of here.

Rhyolite used to belong to pioneer miner Wes Moreland, known as "the greatest liar in the west." He died a few months ago after a colorful life in western mining, including the Virginia City and Tonopah dining room and an "ample stock of choice liquors."

Rhyolite teemed with activity from booms.

nearby mines when it was built early in the century. As the mines played out, it was left deserted.

Founders had high hopes for a railroad which never came. Moreland turned the station into a bar and casino and entertained tired businessmen interested in two fisted drinking.

One of the houses in town is built entirely from empty beer bottles. The purchase also includes a hotel.

MEXICAN NOTES

Establishment of an auxiliary post office in the Mexico City airport will speed the delivery of air mail letters by more than twelve hours, according to a recent announcement made by the post office department. Correspondence to be rerouted to other parts of the Republic and to the south will be handled by the airport office without necessity of delivering these letters to the main post office. Letters for the federal district will be delivered directly from the airport.

Measures to control the overflow of the Conchos river and utilize the water for the irrigation and reclamation of the land along its banks will be undertaken shortly. The control of these waters will in no way conflict with the water treaty between the United States and Mexico since the direct flow of the Conchos which empties into Rio Bravo will not be disturbed.

Inhabitants of the federal district and those who live in states affected by the hoof and mouth disease will have to be satisfied with dehydrated milk for at least a year, until the dairy herds which have been sacrificed to prevent the spread of the disease can be replaced. The first of large shipments of powdered milk are already on their way from the United States.

New pre-conquest sites of great archaeological interest have been unearthed neaar the city of Toohuca, 50 miles to the northwest of Mexico City. It is said that the ruins comprise the Indian city which pre-dated the present city of Toluca.

The University of Mexico summer school, which annually attracts students from all over the Americas, opened July 1. The courses taught in Spanish, English and French, consist in the main, of survey courses covering some aspect of Mexico.

President Miguel Aleman has developed a plan to alleviate in part the problem of adequate water supply for the city of Mexico. The department of hydraulic resources is now studying the plan which consists of restraining dams to make full use of the water from three nearby rivers and the construction of on the spot purification apparatus so that it may be introduced directly into the city's water pipes.

The Mexican TVAplan which will be known as the TCP (Transformation of the River Valley of Papaloapan) is already in full swing with Mexican and U. S. experts rendering reports on the separate aspects of the plan, so that the budget and overall work plan will be ready before the end of the year.

It is rumored that the flight of Donald Nelson, former economic counselor to President Roosevelt, from California to New York during the visit there of President Miguel Aleman will result in Nelson's appointment as economic adviser to President Aleman.

A plan to create agricultural colonies for the regeneration of both civil and military prisoners has been presented to the Chamber of Deputies. It has been suggested that use could be made of abandoned haciendas in appropriate zones for the establishment of these penal communities.

More than thirty groups from all over the United States have been formed to visit Mexico, beginning in the summer of this year, according to a statement made by the Mexican National Travel Department. The first important excursion, composed of persons concerned in the manufacture of nitrates and other chemicals in the region of Chicago, will arrive during the last days of July.

A hospital for the treatment of tuberculosis patients, provided with equipment for the most modern treatment, was recently inaugurated in the federal district of Tlalpan, situated on the outskirts of Mexico City.

Experts from the United States will join with Mexican engineers in the development of Manzanillo as Mexico's most important Pacific port. Plans have been made to dredge the bay, construct three large docks and several modern warehouses.

The navy's Antarctic expedition used a specially devised heater to convert snow into ice during construction of an airstrip surface.

GRASS VALLEY: Walter Perry, has returned to Grass Valley, after two month's trip in the east, visiting several cities, including Detroit, Mich.

Mr. and Mrs. John Grenfell who spent their vacation in Grass Valley visiting relatives returned Sunday to their home in Sacramento.

Robert Deward of the Sacramento Bee editorial staff returned to his home in Sacramento Saturday after a visit with his mother, Mrs. Lillian Deward, 244 East Main Street.

MAN IN YUBA ASKS FOR DRINK, GETS IT, DIES

MARYSVILLE, The Marysville police expressed the opinion James Everett Richardson of this city, died of natural causes following his fall to the sidewalk after accepting a drink of wine from James Kinney, a transient.

Kinney told the officers Richardson asked him for a drink and after he had taken it fell to the sidewalk. He died shortly afterwards.

The body was taken to the Hutchinson Colonial Chapel pending funeral arrangements. The dead man has no relatives known to local officials.

SUPERVISORS TO HEAR UTILITY DISTRICT PETITION

NEVADA CITY: The Nevada County Board of Supervisors Saturday appointed September 3rd as the date for hearing on a resolution pending for the creation of a utility district on Donner Summit. The resolution follows the receipt of a petition signed by 50 residents of that area.

The proposed district includes Soda Springs and Kingvale sections.

Although he participated in many other Pacific Theatre operations, Commodore (now captain) Roger Simpson, ironically enough, was "shore based" when the intial landings were made in the Philippines. During family discussions Seaman Roger Jr., Merchant Marine, describes the action in Leyte Gulf while his navy father listens with envy.

The first United States naval vessel to circumnavigate the world was the USS Vincennes which left New York, in September, 1826 and returned via the Cape of Good Hope in June, 2830.

The USS Constellation, built in 1794 and first United States man-of war to capture a warship of another nation, was recommissioned during World War II and served for a brief period as flagship of the Commander in Chief, Atlantic Fleet.

LEGAL NOTICE

United States Department of the Interior, Bureau of Land Management, District Land Office, Sacramento, California, June 5, 1947, M. A. 037576. Notice is hereby given that Frank Peri, whose post office address is Nevada City, California, has made application for mineral patent for the Gold Ridge Placer Mine and the Gold Ridge Extension Placer Mine, situate in Secs. 32 and 33, T. 17 N. R. 10 E., M. D. M., and more particularly described as follows to wit: Gold Ridge Placer Mine, comprising the NW¼NW¼, exclusive of patented lot 5, being a part of unpatented mineral lot 41, Sec. 33, T. 17 N., R. 10 E., M. D. M. Gold Ridge Extension Placer Mine comprising the NE¼ NE¼ Sec. 32, being a part of lot one and a part of unpatented mineral lot 41 of Sec. 32, T. 17 N. R. M. D. M., A. M. Location notices are recorded as follows to-wit: All Official Records of Nevada County, California. Gold Ridge Placer Mine in Book 20 of Mining Claims at page 202, amended notice in Book 33 of Mining Claims at page 427. Gold Ridge Extension Placer Mine in Book 20 of Mining Claims at page 376 amended notice in Book 33 of Mining Claims at page 427. There are no other adjoining or conflicting claims, and all conflict with patented lot 5 of Sec. 33, T. 17 N. R 10 E. M. D. M. as mentioned above, is hereby expressly excluded from the application for patent.

Date of first publication June 10, 1947.

Date of last publication Aug. 8, 1947.

BECAUSE IT'S SORT OF FUN KICKING HIS LEGS SO THAT DADDY CAN'T GRAB HOLD OF THEM TO PUTT ON HIS LEGGINGS
AND IT'S FUN TOO, WHEN THE LEGGINGS ARE ON, TO SLIP ONE ARM INTO HIS COAT SLEEVE
THEN THE OTHER ARM INTO THE OTHER SLEEVE WHICH CAN GO ON FOREVER
AND IT'S FUN GETTING BUTTONED UP, BECAUSE DADDY TICKLES SO, WHICH MAKES HIM WIGGLE, WHICH MAKES HIM TICKLE HARDER
BUT THE MOST FUN IS WHEN DADDY DISCOVERS HE FORGOT TO PUT ON UNDERWEAR SWEATER, AND HAS TO DO IT ALL OVER AGAIN

LOOKING AHEAD

BY GEORGE S. BENSON

President—Harding College, Searcy, Arkansas

A Present Threat

America today needs thinkers if any nation ever did. We not only have the responsibility of the world, but we have a debt of $2,000 for every man, woman, and child. This means a debt of $8,000 for a family of four. Just to pay the interest on that debt takes more federal income than the nation ever raised from taxes in any year before the war. We have, also, the added costs of war pensions and expenditures for veterans.

Moreover, we must keep strong armed forces as a hope of not soon being in another war. Again and again we shall be called upon for relief and assistance to foreign countries. The $400,000,000 for Greece and Turkey is only a beginning. The total demand over the next two years may run as much as $3,000,000,000 above all present obligations. Demand is everywhere, at home and abroad.

Essentials to Health.

To meet all of these heavy demands we must have a healthy economy. This is not optional. It is a must. President Truman, Mr. Bernard Baruch, and others are calling for some of the essentials to a healthy economy. They have recently stressed longer hours, and higher productivity on the part of labor; lower profits and lower prices on the part of industry; and maximum production on the part of agriculture. These are good. They are essential, and I endorse all of them.

But one equally important item is being overlooked. It is so important, that I believe unless corrected properly it will act as a brake on our economy and prevent the very prosperity we all crave. I refer to taxes on incomes in the high brackets. The contention that we can keep the present high tax rate on big incomes and maintain a healthy economy is in my opinion fallacious.

Desire to Venture

A dynamic economy like ours requires that a lot of men each year must not only dream dreams of achievement, but that they actually must venture into business in an effort to satisfy American consumers. This is an obligation upon men who have large amounts of capital. But men in the high brackets now are being taxed up to 85 per cent of their net income. The take from income is so great as to threaten their willingness to risk. A man who could keep only 15 per cent of any additional income would not likely find it advisable to undergo the required risk necessary to increase his income.

Politics and Courage

Naturally, it is easy to say that those in the high brackets are the ones most able to pay, that they are the last ones to deserve any tax relief. It is also good politics to appeal to the many, with a determination to keep taxes on those "able to pay." But it is very bad for the future of the nation. Any policy that keeps competitive capital from going freely into the tools of production to make goods and provide jobs is, in the long run, going to reduce the national income, reduce the number of good jobs and reduce wages.

Sustained high investment of private capital in the tools of production is the only possible road to sustained high wages and full employment. May we have the courage and the wisdom to correct this dangerous threat to our future before it is too late, regardless of immediate political repercussions. May we look to the welfare of the many, and keep America ever the land of the free.

The United States Post Office Department approves but one form of address on envelopes.

Uncle Sam Says

Exactly how much have you saved in the last 12 months?

If you can't write a good big figure in the space above then you'd be smart to adopt a method of savings that millions of Americans have found to be absolutely sure fire. This method is the regular buying of United States Savings Bonds. People buy Savings Bonds now on two convenient plans. If you are on a payroll, through the Payroll Savings Plan. If you are a professional man or woman or self-employed, through the Bond-a-Month Plan at your bank. By signing up on either plan, twelve months from now you will be able to write a nice healthy sum in that space up above.

U. S. Treasury Department

Nevada County Long Ago - -

FLOY MARGARET REYNOLDS

20 YEARS AGO

Miss Mary Meservey of the Nevada City post office force was leaving for a months ocean trip to Hawaii. She was joining her sister, Florence, in San Francisco and together they were to sail on the Matsonia.

Miss Helen Calanan, freight agent of the Nevada County Railroad reported that the depot was again showing signs of its old time activity. The railroad was running double-header engines daily to pull the increased loads of freight. On one day the train pulled in with eight carloads of freight—the largest consignment at one time in several years.

Mrs. Louise Whitworth entertained at a bridge luncheon at the National Hotel. Prize honors went to Miss Gertrude Goyne, Miss Ruth Grimes ant Mrs. George A. Legg.

A second straw ballot conducted by the Nugget to determine the proposed $10,000 swimming pool resulted in a heavy majority for the Park Avenue site. Voting was as follows. Park Avenue, 388; burned district, 25; Red Men Park, 27; Bennetts site, 39 and Auto Park 3.

50 YEARS AGO

Hugh Murchie, new street superintendent, was ordering streets as well as plank sidewalks put in first class condition. He was making a thorough inspection of the various thoroughfares and persons receiving orders to have the proper work done were expected to act promptly.

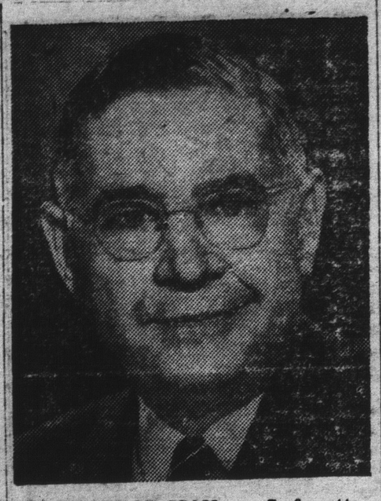
Mr. Alf Tregidgo was soon to start the Yuba Mine, above the town of Washington, in active operation. At one time the mine was owned by John C. and Edward Coleman and during their ownership some exceedingly rich ore was taken out. Presently it was owned by Haggin and Tells and an eastern company had a bond upon it.

The dwelling house of Mrs. Young on Wet Hill, a short distance west of town was destroyed by fire. The place was occupied by Isaac Williams and family and though most of their wearing apparel and personal effects were saved, the building was entirely consumed as there were no facilities for fighting fire in that locality. Mrs. Young, the owner, was living with her daughter on upper Pine Street.

The newly elected officers of Nevada City Council, No. 118, Chosen Friends, were installed by D. P. G. C., J. M. Walling. They included: Past Councilor, F. R. Merill; Councilor, Mrs. M. A. Miller; Vice Councilor; Mrs. E. Isaac, Instructor; Mrs. G. M. Monro; Sec. Mrs. J. Swartz; Treas., Mrs. J. C. Rich; Prelate, Mrs. A. Getchell; Marshall, J. Paine; Warden, Mrs E. Scadden; Guard, Henry Guenther; Sentry, Mrs. H. E. Stansfield; Trustees, Mrs. M. L. Breed, Mrs. H. E. Stansfeld, and Mrs. L. C. Shurtleff. Following the ceremonies a program of solo and instrumental music was given by Miss Ethel Bond, Mrs. Bennetts, Miss Alice Beedle, Miss Guenther. Miss Mamie Meservey, Miss Clara Nancarrow, Mr. N. Bennetts and Miss Lizzie Wilde.

75 YEARS AGO

The case of the Central Pacific Railroad Company for the reduction of their assessment in this county was to be heard before the Board of Equalization. The Hon. T. B. McFarland and E. Black Ryan were to appear for the railroad and M. S. Deal, district attorney, was to represent the county.



ELKS' HEAD MAN . . . Lafayette A. Lewis, Los Angeles attorney, has been elected grand exalted ruler of Benevolent and Protective Order of Elks.

The following names appeared on the roll of honor of the Blue Tent School: Kate Edwards, teacher: Annie Sutherland, Mattie Moody, Alice Blackwood, Robert Blackwood, Josie Penders, Frank Sheilenbeger, Nevada Sutherland, John Smoot, Walter Penders, Ada Penders, Nellie Penders, Willie Eustis, Mollie Sutherland, Elia Blackwood and Thomas Moody.

The Rev. J. A. Wirth resigned his position as pastor of the Baptist Church in this city.

A law requiring a suspension of business on Sunday was being more generally observed than at any time for many years. The clothing, dry goods, and grocery stores appeared to be complying more enthusiastically with the order.

Harrison Gove was putting up a new building on the lot adjoining the store of Thomas Shurtleff on Main Street.

Walter Mead, formerly of Nevada City, was appointed to a position in the surveyor general's office.

CHRISTIAN SCIENCE CHURCH

Christian Science Society of Nevada City holds services every Sunday in their church, 114 Boulder Street at 11 o'clock. Sunday school 9:45 a. m. A Wednesday evening testimonial meeting is held on the first Wednesday of each month at 8 o'clock. Our reading room is in the church edifice. It is open Mondays, Wednesdays and Fridays, except holidays, from 2 to 4 p. m. The public is cordially invited to attend our services and visit the reading room.

Ypba City Merchants Oppose Parking Meters

YUBA CITY: A suggested plan to install parking meters in Yuba City was vetoed by the Yuba City Commercial association today.

The association today named a four man committee comprising Bill Bennett, Al O'Connor, Dick Shannon and Bill Williams to appear before the mid-August meeting of the Yuba City council and inform that body of the Commercial group's opposition to the parking meters.

The move was an answer to Yuba City Engineer George Breed's suggestion made at last night's council meeting, to install the meters.

Mayor Percy Mosburg said at the association meeting today that "'it would be pretty small of the city to put in meters to attract business."

Al Rose indicated his opposition to parking meters by saying, "Kill the idea before it starts." Marlo Del Pere offered the view that "'the community isn't large enough for it." Rose also thought the meters would raise taxes on Plumas street and drive business to outlying districts.

SEEK WORLD'S OPINION . . . Eugene Pulliam, Indianapolis, Ind., newspaper publisher, and his wife scan world atlas preparatory to leaving on world tour to find out what the plain people all over think of the United States.

Prints are artistic designs or productions used in the advertisement of commercial goods, or in like association, but not actually placed on the goods.

TYPE COLLECTOR VISITS NUGGET

NEVADA CITY: Charles L. Palmer of Fresno, a publicity executive for the Pacific Gas and Electric Co., and a collector of old and antique type faces, visited Nevada City yesterday.

Palmer called at the Nugget office and found some antique foundry border which he purchased. He presented the Nugget with a complete catalogue which he printed on a foot-power press.

His specimen book displays hundreds of beautiful old antique type faces, laid out in an ornate antiquated typography.

National forest watersheds give protection to large segments of the electric power industry.

Death by heart disease increased 63 per cent in the city and county of San Francisco in 1946 over 1920.

Foreign consular offices are located in all American cities where the certain countries have interests usually in seaport cities.

CAMPTONVILLE NEWS

By MRS. J. D. RITTENHOUSE

The Ladies Society of Christian Service will meet a week from Thursday, August 14, at the home of Mrs. Jerry Platz. Election of officers for the coming year will be held. The meeting will last all day, a pot luck lunch will be served at noon.

The Camptonville Women's Club met at the home of Mrs. Grace Pauly Thursday.

Michael Brown, son of Mr. and Mrs. Clarence Brown, suffered severe cuts and bruises when he fell from the Brown's car near Petersons Corner on their return from Nevada City last Saturday. Young Michael was attempting to close the rear door of the car while it was in motion and the force of the wind on the open door threw the lad to the road. He was confined for treatment in the Miners Hospital for several days.

Mrs. Frank Amaral is convalescing at her home in Camptonville after undergoing an appendectomy in the Miners Hospital the latter part of July.

Mr. and Mrs. Donald Read of Grass Valley were week end visitors at the home of Mr. Reads brother, Leon Read.

Mrs. C. W. Groves of Seattle, was a house guest at the James D. Rittenhouse home during the past week. She left Saturday to visit friends in Oakland before flying back to her home in Seattle. Mrs. Groves is the mother of a sorority sister of Mrs. Rittenhouse.

Mr. and Mrs. Eyerly, recently a co-owner in the Ruby Mine, have moved to their home in Salem, Oregon.

Mr. and Mrs. Richard Pfiffer left late last week on a vacation trip into the northern part of California. They plan to spend about ten days visiting points of interest before returning to their home here.

Mr. and Mrs. Ned Van Dyke of Marysville, were visitors in town last Sunday.

Misses Joyce and Edith Chatfield went to Pike City last week to spend a few days visiting Miss Mary Hamilton.

William McGuire of Oakland, was in town last Sunday on a brief visit with friends.

Mr. and Mrs. Frank A. Pendola, Sr., and Mr. and Mrs. William Pendola and family of Grass Valley, spent Sunday here visiting relatives.

Mr. and Mrs. Edward Harvey, with their son and daughter, have moved here from Nevada City, taking up their residence in the school district teacherage.

Vernon F. Lyons and daughter Barbara Townsend made a trip to Nevada City Saturday.

Frank O. Long and Carl A. Hermanson retrned from a recent visit to San Francisco.

Katherine L. Pauly arrived last week from Los Angeles to spend a week visiting her mother, Mrs. Grace Pauly.

Jack Williams came up from Treasure Island last week to spend the week end with his parents, Mr. and Mrs. Clifford Williams.

Mrs. Celine Pew, of Downieville passed through town last week from Nevada City en rote to her home.

Harold Pingree, who has been stationed here for the past few months with the road maintenance crew of the forest service left last week for his home in Sacramento.

Mr. and Mrs. Robert Geertz, of Downieville, were in town last Tuesday on a short visit.

Robert Glatt made a business visit to Grass Valley last week.

Clarence Long and Glenn W. Ryder left a week ago Monday for Calida Mill to remain for the next few months.

Mr. and Mrs. Erle Pauly, son and daughter, Mrs. Grace Pauly and Nickolas Rothe made a trip to Carson City, Nevada last week.

Mr. and Mrs. Ralph E. Rogers left last week for Oakland preparatory to a trip to Detriot, Michigan.

Mr. and Mrs. Charles Dodson of Nevada City were in town last week on a short visit to their old home here.

Superintendent of Schools Agnes Weber Meade, of Marysville was in town on an official visit Tuesday last week.

Emil Verch arrived in town last week from Redding and is visiting the home of Mr. and Mrs. Clyde Betey. He expects to remain here for a few weeks.

Frederick G. Phillips, of the Ruby Mine, returned last week from a business trip to Seatle.

Proprietor's net income in California for 1946 is estimated at $2,317,900,000.

EISLERS AT COURT . . . Gerhardt Eisler, described as the No. 1 Communist in the United States, and his wife leave U. S. district court in Washington, D. C., where Eisler is being tried on passport fraud charges. The government is scheduled to present further evidence that Eisler made several trips to this country to whip the American Communist party into the Moscow line. Eisler previously heard an admitted former Communist testify that every American Communist is an agent of the Communist Internationale.

STACKS OF MONEY—ALL BAD . . . Deputy United States Marshal Doris Brown embraces the mountain of bogus $10 bills found on highway south of St. George, Utah, and brought to Los Angeles by secret service agents. The pile of counterfeit bills was estimated to represent about $150,000 at face value.

NEW SECRETARY . . . Kenneth Royall was appointed by President Truman as secretary of war to succeed Robert Patterson, who resigned after seven years in the war department. Royall was undersecretary of war.

CINDERELLA MAN . . . Ross Lockridge Jr., professor of English, father of four children, was down to his last $100 when he heard that his first novel, "Raintree County," had won Metro-Goldwyn-Mayer novel award — worth $150,000.

Veterans' News

Special prosthetic appliance units to improve service to more than 5000 physically-handicapped veterans in California, Arizona, Nevada and Hawaii are now in operation, Colonel Thomas J. Cross, Veterans Administration Branch 12 chief, reported today.

Chief of the new prosthetic appliance section of the Medical Service is Harry D. MacBird, 31, an arm amputee. MacBird who served five and a half years as a navy aviation pilot, lost his arm in the crash landing of PBY in the Aleutian Islands Nov. 22, 1943. He later married a WAVE he met while a patient in a navy hospital.

Representatives of MacBird's section will be located in VA regional offices in San Francisco, Los Angeles, San Diego, Reno, Phoenix and Honolulu.

The new service is designed to simplify the purchase of prosthetic appliances for veterans, MacBird asid. Trained VA employees will give disabled veterans the latest authentic information on new inventions and other developments in artificial arms, legs, hearing aids, aids for blind veterans and other devices.

Manufacturers, dealers and inventors will be encouraged to submit to VA new ideas for the improvement of artificial aids for research and further development.

Mac Bird is urging that all amputees obtain their special prosthetic service cards which entitle them to obtain up to $35 worth of repairs on artificial limbs without prior authority.

LEADS DUTCH FORCES . . . Lt. Gen. S. H. Spoor issued an order of the day announcing opening of hostilities between Dutch forces and Indonesian troops, following collapse of negotiations between Dutch and Indonesian governments.

PREVENT SHORT CIRCUIT

Periodic inspection of the generator on your car is advised by the California State Automobile Association. Failure to replace worn brushes may result in a short circuit, caused by the brush holder cutting into the armature. A competent mechanic should be consulted for this insection.

DEER HUNTING PROSPECTS

Deer hunting should be good when the season opens in the mountains of Colusa County, predicts the National Automobile Club. Several bucks have been spotted in the vicinity of Wilbur Springs.

INSPECT FUEL LINES

Gasoline leaks in your car not only reduce fuel economy, but constitute a fire hazard. The California State Automobile Association recommends having fuel lines checked by a competent mechanic at least twice a year.

BATTERY TERMINALS

Failure of a car motor to start is frequently caused by loose or corroded battery terminals. Tap the battery cable clamps lightly with the handle of a hammer or a piece of wood and try the starter again before giving up. Sometimes the slightest amount of corrosion may be the cause of starting difficulty.

The San Francisco Stock Exchange was organized in 1862.

California's 1946 canned vegetables pack totaled $5,542,829 standard cases.

THE - Diary of a 49'er

FROM THE BOOK EDITED BY C. L. CANFIELD

OCTOBER 13, 1850—There has not been a drop of rain, nor has there been a cloud in the sky since May last; but it thickened up early in the week and Tuesday night when I awoke the rain was pattering on the roof—a regular old-fashioned storm. Anderson woke up, too, and we got up and started a big fire and sat and listened to the gusts of wind blowing through the pine tree tops and sheets of water slapping up against the south side of the cabin. The rain sounded good. The whole country was dusty and dried up, and I felt as if I wanted to go out and stand bareheaded in the storm. It rained all day Wednesday, and Anderson, who went up to the claim in the afternoon, came back laughing and said he did not think the miners would bother us for a while on the slum-gullion question. There was four feet of water in Rock Creek and rocks rolling down it as big as a bushel basket. It did not quit until Thursday afternoon. It washed out the head of the ditch and we have not fixed it up yet. Jack is in disgrace. He ran down a skunk Friday and we just couldn't stand him in the cabin until Anderson used up all our soap washing him. He smells yet. We havent m'ade a dollar for two weeks.

OCTOBER 20, 1850—We got the ditch repaired and the water turned on the flat by Thursday and have been running off the top dirt. It's amazing the amount we move and it astonishes all our neighbors. A lot of them are looking out for side hill diggings below us and will try the same process. Anderson says it will be a good idea to extend our ditch and sell the water to the miners who might want to use it, but I don't see what right we have got to it more than anybody else. Anyway, he has put a notice at the head of the ditch claiming all the water it will hold, and as there is no law in the case he says he will make a law out of the precedent.

(NOTE: The first claim to water rights on record in Nevada County).

Had a letter from Henry North from Sacramento. Says he has been working there and has a great chance to make money if he had the capital. Asks me to loan him a thousand dollars. Anderson says to "go slow." I'd do it for Hetty's sake, but he ought to have written before this. A lot of miners have gone about forty miles north of here on another branch of the river where they say rich coarse gold diggings have been discovered. A pack mule load of gold was brought to town from where last week and there was one piece worth three thousand dollars and lots from an ounce to twenty ounces. Many of the miners think this is the discovery of the source of gold; that is, where it grows. There is one fact that bears out this theory. The higher the miners get up in the mountains, the coarser the gold. Around Nevada County, so far as I know, it is seldom that a nugget is found that weighs over an ounce, while up on Kanaka Creek one has been found that eighs twenty one pounds and several from five to fifteen pounds and I am told that there is very little fine dust in those diggings. I hope they won't find the fountain head until I have turned my gold into some kind of property.

OCTOBER 27, 1850—We have had a great week. There is a streak up through the middle of our flat that is lousy with gold. We took out one hundred and eleven ounces and only worked a small portion of what we uncovered. We had a meeting of the miners at our place yesterday afternoon to decide in regard to ditch and water rights, and it was a hot one. Some of them claimed that water was as free as air and no one had a right to monopolize it, and they would have carried the day, but Anderson proposed as a compromise that all interested should pitch in and build a ditch on shares. As there were only dozen or so who had any use for the water outside of the creek bed, this was agreed to. These are the ones who have taken up flat claims like ours and are anxious to prospect them. We give our ditch to the company and have a one-sixth interest in the extension. I don't see what good it will do, but Anderson says common consent makes law and the action will establish our rights. Have had two good letters from home. Mother wants me to return for Thanksgiving and I'd like to be there, but the chances to get rich are too good to leave now. Dad writes that he has bargained for the Slocum Farm for four thousand dollars, and if I have another lucky week I will send him the balance. Somehow I don't feel so eager to go back and live on it as I did three months ago.

NOVEMBER 3, 1850—Another fair week, although not so good as the previous one. We are working the flat about forty feet wide and the sides do not pay as well as the middle streak, but we took out sixty five ounces. The miners have been driven out of the creek by too much water and a great many have left for other diggings. There are two men cutting the extension to our ditch. Spent a day in Nevada City, as they call it now. There are over two thousand miners working in the vicinity. My little Frenchwoman has gone away. I asked for her and they told me she was dealing over at Centerville.

(NOTE: The Grass Valley of today was first named Centerville because it was midway between the two more important mining towns of Rough and Ready and Nevada City).

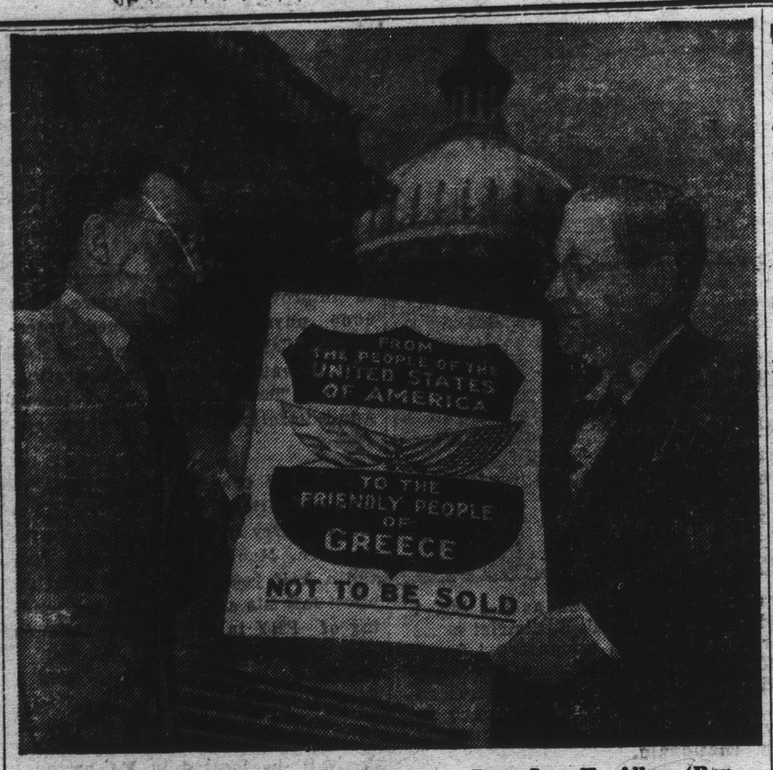
There is no particular reason why I should be so much interested, although I was disappointed in not seeing her.

A minister preached in the United States Hotel dining room and the place was filled, but there were only three women in the crowd. I was told he took up a collection and raked in four hundred dollars. That is as good as mining and not as hard work. Our minister in Norfolk would be satisfied with that much for a year.

NOVEMBER 10, 1850—Anderson was taken sick Thursday and has been out of his head for two days. I got a doctor from town and he says he has a bilious fever and with good care he will come out all right. I've got to like Anderson mighty well and I should feel bad if anything should happen to him. His crazy talk in his delirium was mostly about his wife. I guess they had a flare-up about her extravagance and other foolishness ,and that's why he left and what makes him so grumpy about home matters. Poor Jack has been miserable, licking Anderson's hands and face and whining like a sick baby, and I had to tie him up. The boys around have been very good. offering to set up nights and bringing in quail and squirrels for him, but he has not eaten a morsel. Doctor says to make him some broth. I've managed to get along, but I'm nearly dead for sleep.

Another begging letter from North. I don't see what right he has to ask me for a thousand dollars and without any explanation as to what he wants it for.

(To Be Continued)



LABEL FOR GIFTS TO GREECE . . . Rep. Leo E. Allen (Rep., Ill.) and John Baer, cartoonist and former congressman from North Dakota, display the emblem submitted by Baer for house approval in connection with a bill introduced by Allen for the labeling of all goods donated by the U. S. to the relief of war-torn countries. The measure would provide that indelible markings on all such gifts tell their origin, destination and unsalability.

Miss Trew Simpson, daughter of Captain Roger Simpson, USN, says the nicest birthday present she ever received was on her 21st birthday, when her father's destroyer division sank a Japanese cruiser and three destroyers in the Vella Lavelle action. On her sister Mary's birthday, he again distinguished himself in action.

DEL NORTE FISHING

Both sport and commercial fishnormous catches of salmon last week from the waters off Del Norte County. Anglers were also taking salmon and steelhead from the lower Klamath River and salmon and trout from the Smith River and its tributaries. Trout limits were being taken on flies.

BLACK BASS TAKEN

Black bass, both large and small mouth vareties, were being taken last week in the riffles of the Sacramento River in Glenn County.

SALMON FISHING FIRST-RATE

Salmon anglers were enjoying first-rate sport last week on Humboldt Bay, Humboldt County. Everyone who trolled low and deep with anchovies caught fish.

"For more than 20 years EM, 21 year old war veteran, must turn over not less than 10 per cent of his earnings each payday for the support of two children whose mother was killed in a traffic accident in which he was involved." Startling? Sad? The National Conservation Bureau offers this true news item as a reminder of the tragedy and the cost of carelessness while driving.

Whenever Fleet Admiral Chester W. Nimitz, USN, Chief of Naval Operations in the United States Navy, visits his home state of Texas, he changes the buttons in his uniform and wears those of the Texas navy, a small but potent fleet of vessels which protected the coastline of that state from 1839 to 1845, when it was incorporated into the United States navy.

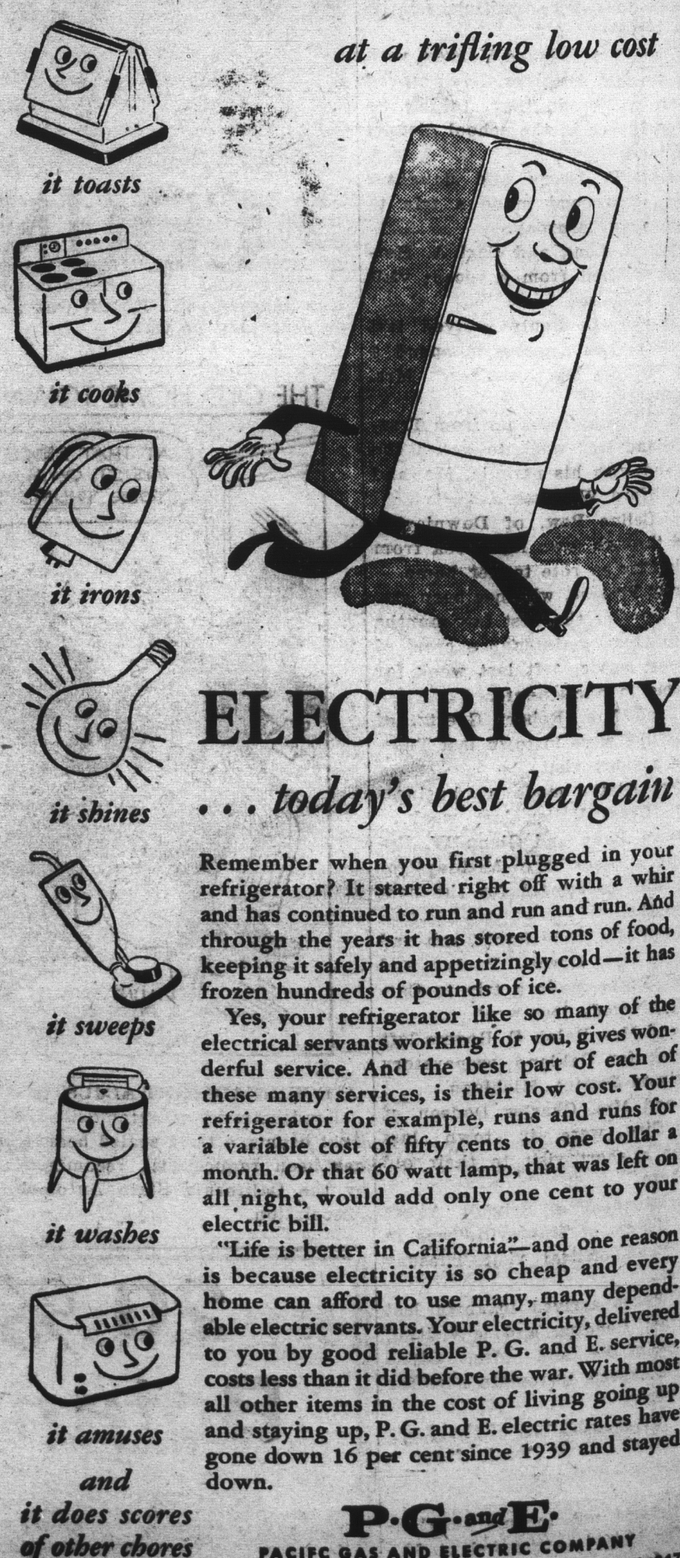
it RUNS and it RUNS and it RUNS at a trifling low cost



ELECTRICITY ... today's best bargain

Remember when you first plugged in your refrigerator? It started right off with a whir and has continued to run and run and run. And through the years it has stored tons of food, keeping it safely and appetizingly cold—it has frozen hundreds of pounds of ice.

Yes, your refrigerator like so many of the electrical servants working for you, gives wonderful service. And the best part of each of these many services, is their low cost. Your refrigerator for example, runs and runs for a variable cost of fifty cents to one dollar a month. Or that 60 watt lamp, that was left on all night, would add only one cent to your electric bill.

"Life is better in California"—and one reason is because electricity is so cheap and every home can afford to use many, many dependable electric servants. Your electricity, delivered to you by good reliable P. G. and E. service, costs less than it did before the war. With most all other items in the cost of living going up and staying up, P. G. and E. electric rates have gone down 16 per cent since 1939 and stayed down.

WARDENS WARNING HUNTERS ON FOREST FIRE HAZARDS

SACRAMENTO: Warnings for hunters to be extremely careful in the hills this year because of extreme fire hazards in practically all of the state, and admonitions urging hunters to obtain permits from private land owners, or stay away from posted areas, characterize scattered reports from fish and game wardens to the California Division of Fish and Game.

The 40 day season for black tailed deer will open August 7 in the coastal and the recently designated Southern California two deer areas.

Deer hunting apparently will range from poor to excellent. San Luis Obispo County offers excellent prospects, particularly in the Adelaide and Pozo areas. A recent night check near Adelaide revealed 180 deer, many of them legal bucks, in an area eight miles long and two miles wide. Old timers declare there are more deer this year in this area than they have seen in 50 years.

Bouquet Canyon is regarded as the most promising area in Los Angeles County. Some bucks will be available in the Chatsworth area, but hunters must obtain permission from ranchers to hunt as this is all private land. Fair hunting also is expected on the north slope of the Angeles Forest in the Sulphur Springs and Pinon Flat country and the open area in Refuge 4B.

Bucks are reported to be fairly plentiful and in good condition in San Diego County, but a terrific fire hazard exists. Four serious fires already have occurred this summer and a recent blaze in the Laguna Mountains drove many deer into the Laguna Refuge.

The Bureau of patrol has issued a warning to the effect that the "accidental" slaughter of elk in the area will bring serious repercussions, as the area is being heavily patrolled. Last season, several head of elk were "accidentally" shot.

Orange County deer hunting prospects are blighted by the fire menace. The Cleveland National Forest is closed to trespass because of excessive fire hazards and Refuge 4C, which was opened this year by the California Division of Fish and Game, lies within this area. The remaining hunting area lies on private lands, which the owners have closed to trespass.

Unless hunters have permits to hunt from private land owners, they are urged not to seek deer in San Jose County. Dry water holes and the danger of fire have caused ranchers to intensify their patrols and practically all of the hunting area is on posted, privately owned land.

Sonoma County reports indicate an excellent season in prospect. Deer are in splendid condition and fairly abundant. Hunters are urged to exercise caution with fires as the country is extremely dry.

There will be good hunting in western Sonoma and Marin counties for those having permits from land owners. There is virtually no open hunting in western Sonoma and Marin counties. The deer population is reported as being approximately normal.

Each report received at the office of the Division of Fish and Game urges deer hunters to be extremely careful this year with campfires, cigarettes, cigar, pipes and matches.

Hunters are urged to personally check with forestry officials in areas they intend to hunt in view of the fact that further emergency closures are anticipated because of extreme dryness this season.

BROAD STREET

Harley M. Leete, Jr.

Looking into his crystal grab-bag, your reporter discovers the following minutiae miscellaniae: In Graniteville there is a Left-Handed Club. For 50c membership Graniteville cafe society earns the privilege of being fined one round of libations for every time they hoist a foaming glass with their right hand. From the fine print at the bottom of the Left-Handed Club Constitution, I read that this procedure makes for gala evenings in Graniteville.

To go from the ridiculous to the sublime, our community is soon to be blessed with a Little Theatre Group. "Of Thee I Sing" is the first contemplated performance of the group, sparkplugged by Town Talk's Ed and Margaret Stephens. Organization meeting is plotted for a few days hence. Stephens has wide experience as stage manager, director and leading man in various theatre groups.

Like Scotch broom? Want an argument? Let me introduce you to Harry Ferdinand (Si) Sofge, unofficial mayor of Prospect Hill. Sofge looks with unfriendly eyes upon a lot full of Scotch broom across from his manse on Clay St. It is, he will tell you at the drop of a lighted match, an unmitigated menace to the whole of the hill. In a curbside prospectus, Sofge informed us that Prospect Hill's prospects would be dim indeed until the retired prospectors living on the hill got up in arms and eliminated this prospective holocaust.

As self-appointed merchandising adviser to Alpha Hardware Co., your reporter would like to say where HE would have located the ice-water drinking fountain which the store has placed where it is most convenient for their customers, right at the main doorway. The appropriate spot would have been down in the basement or up in the mezzanine, where the thirsty could have been directed by promising signs, spotted so as to guide them through most of the stock on display. Also, the thirst-ridden ones, ater having been exposed to all that merchandise, and having had to walk a hundred yards or so extra, would be so appreciative that, much refreshed, they would stop on the way out for a big shopping spree.

Always looking for an opening to put in a plug for advertising in general and the Nugget in particular, I put a frosty hand into my ermine-lined grab-bag and come out with the following hot flash: William Wrigley, a big chaw in the chicle business, was a great advertiser. One day he was riding on a crack train from New York to Chicago with a friend. The friend was curious to know why the chewing magnate continued to spend so much money on advertising.

"Your gum is known all over the world," said the chum. "So why don't you save the millions of dollars you now are spending on advertising?"

Wrigley chewed a second reflectively, then asked "How fast is this train going?"

"About sixty miles an hour,' was the answer.

"Then," inquired Wrigley, "why doesn't the railway company remove the engine and let the train travel on its own momentum?"

CALF ROPING WILL BE FEATURED AT HORSE SHOW SUN.

GRASS VALLEY: The Gold Trail Riders are sponsoring and will participate in the free Horse Show to be given this Sunday at Happy Daze Ranch arena, at Casey's Corners, 8 miles east of Grass Valley, in Penn Valley.

Highlight of the afternoon's activities will be an exhibition of stock horse skill and two jackpot calf roping contests. Only fee to be charged is a $2.50 entry fee for the roping contest.

Sheriff Richard W. Hoskins will be grand marshall. William H. Stinson will announce events. Richard Lostutter will be the arena clown. Mrs. Frost will register entries at the grounds. Mrs. Lostutter will be official timer. Mrs. Ray J. Kronemeyer will award ribbons to contest winners.

The Sierra Rangers, Auburn riding group, have been asked to provide judges for the contest. Ed Caldwell, of Anthony House, will exhibit his prize Palomino stallion. E. Granholt is the arena director. Wesley White and Mitchell Painter will be arena aides. Wayne Wainwright will be gate keeper.

Following the horse show, which begins at 2:30 p. m. and will continue to about 5, there will be a sale of horses in the arena.

Mr. and Mrs. Andrew Larsen Honored On 40th Wedding Anniversary

NEVADA CITY: Mr. and Mrs. Andrew C. Larsen of this city were honored on their 40th wedding anniversary last Sunday with a family reunion and dinner at the home of their daughter, Mrs. Jeff Mooers and Mr. Mooers.

Among the out of town guests were Messrs. and Mesdames W. J. Charles and James Cameron, Mrs. Thomas Cameron, all of San Jose, Nevada City guests were Mrs. Annie Mooers, Mr. and Mrs. Carl Larsen, Theodore Larsen, Mrs. Irene Wall, Cameron Larsen and his daughters, Carolyn and Lenora Larsen, Margaret Mooers, Mr. and Mrs. Ted Sigourney and daughter, Darleen and Mrs. Marjorie Saunders and daughters Marilyn and Charlene.

Mr. and Mrs. Larsen were married August 9, 1907 in McPherson's Mills, Nova Scotia, Canada, in the home where Mrs. Larsen was born.

Walter Perry of Alta Street this week entertained as gest, George Strick of Detriot, Mich.

UTILITIES ASSESSMENT GOES UP

GRASS VALLEY: The State Board of Equalization has announced that public utilities in Nevada County will be assessed this year at $9,014,260 as compared with $8,813,350 in 1946

CARD OF THANKS

We wish to thank all of our friends who have been extremely kind in connection with the sickness and demise of the late Mrs. George Hitchens. We thank all those who have aided in any way and particularly the Order of the Eastern Star and Rev. Russell Lincoln, as well as those who sent floral pieces.

GEORGE HITCHENS,

F. C. BEEDLE AND FAMILY,
GRANVILLE BEEDLE AND FAMILY.

The enlisted men attached to the USS Tutuila (which was moored in Chungking) adopted eleven of these orphaned children and contributed money to feed, clothe and educate them. Whenever a sailor was detached it was understood that the man who relieved him should take over the custody of the youngsters.

Elton O. Carvin, chairman of the Sierra County Board of Supervisors, and candidate for State Senator, visited Nevada City on business Wednesday.

PLACERVILLE OUTLAWS WIN CHAMPIONSHIP OF FOOTHILL LEAGUE

COLFAX (Placer Co.): The Placerville Outlaws won the championship of the Foothill Amateur League here Sunday, defeating Colfax by a score of 7 to 3. The Outlaws won thirteen consecutive league games, winning both halves without a defeat.

One contest was canceled when rain prevented the playing of the final games of the first half. Placerville won that half in six straight with the runners-up being Auburn and Lincoln, with only four victories.

In Sunday's game, pitchers Jack Carpender and Pellegrini held Colfax to one hit while their team mates batted out 17 hits off of Brashear, the Colfax twirler. The score:

	R	H	E
Placerville	7	17	2
Colfax	3	1	1

Batteries: Carpender, Pellegrini and Williams; Brashear and Yocum.

Summer months are the time of sudden electrical storms, warns the National Conservation Bureau in its efforts to prevent accidents. Over 400 persons are killed every year when struck by lightning. If you're caught in a storm, stay out of open boats, don't stand under tall trees.

California is one of seven states requiring milk used in the manufacture of cheese be pasteurized.

The Bank of California in San Francisco was founded in 1864 by William C. Ralston and D. O. Mills.

GOLD PANNING CONTEST AT QUINCY FAIR

QUINCY: Interest in the Gold Panning contest at the Plumas County Fair, Aug. 15-17, has resulted in announcement of a new contest for amateur gold panners, in addition to the grizzled creek miners from the Feather River.

Furthermore, Fair Manager Martin W. Sword has announced a gold panning concession where anyone can try their skill, for a small fee, and keep the gold they can wash out. Real creek gravel from proven gold bar locations will be available.

Some of the so-called "grizzled" creek miners, a brief review of the entry list reveals, will be more finger waved than grizzled. They'll be women—and women gold panners who consistently make a success of panning for gold alongside their miner husbands.

They will enter the free-for-all, and ask no special privileges from their hardied competitors.

Free chest X-rays were given to 62,367 persons at the San Francisco Department of Public Health in 1946.
